## NEW ZOOM! Whitening Pens - ORDER NOW!

Getting a white and super bright smile is now as easy as colouring in thanks to the NEW Zoom! Whitening Pens. Zoom! Whitening Pens let you "colour in" your teeth with a pen filled with a specially developed whitening agent to give you a whiter, brighter smile without any mess.

The brand new Zoom! Whitening Pens are the result of extensive research by Hollywood dentist to the stars, Dr Bill Dorfman who wanted to develop an easier way to dramatically whiten your teeth, wherever and whenever you want. The NEW Zoom! Whitening Pens can help you look and feel your best without all the hassle that comes with bleaching trays. NEW Zoom! Whitening Pens are convenient, simple, completely safe, and really work!

The clear, time-released formula is dispensed by simply clicking on the pen applicator which enables safe and effective teeth whitening anytime, anyplace, even when you're on the go. It dries almost instantly on your teeth, without fuss, leaving a cool minty flavour behind.

Zoom! Whitening Pens will give any smile a lift and are particularly suited to ensuring your professionally whitened teeth stay looking sensational.

For maximum WOW!, use the pen twice a day - daytime or nighttime - and then refrain from eating or drinking for half an hour. You can now whiten your teeth at work, watching TV at night or anywhere you like! If used twice a day every day, each pen lasts for a month (60 applications).
